

Amendments to the Claims:

1. (Canceled)
2. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein ~~the causing to~~ identifying at least one ~~lodging~~ facility includes causing the server to access ~~accessing~~ a database containing a plurality of ~~lodging~~ facilities and a listing of ~~computer-related~~ printing services associated with each ~~lodging~~ facility.
3. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein the identified at least one ~~lodging~~ facility provides a ~~computer-related~~ printing service that is compatible with ~~the~~ hardware and software associated with ~~the source of a~~ computer of a user making the request.
4. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein the identified at least one ~~lodging~~ facility provides a ~~computer-related~~ printing service that is compatible with a computing device to be used by ~~the~~ a source of the request at the ~~lodging~~ facility.
5. (Canceled)
6. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein the ~~computer-related~~ printing service ~~is~~ includes a printer ~~in at least a portion of the rooms of the lodging facility.~~

7. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein the ~~computer-related~~ printing service is a printer at the a front desk of the ~~lodging~~ facility.

8. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein the ~~computer-related~~ printing service is a printer in a conference room of the ~~lodging~~ facility.

9. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ wherein the search request to locate a ~~lodging~~ facility is generated by an application program on a user's computer.

10. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ further comprising ~~allowing the source of the request to make~~ initiating a reservation at an identified ~~lodging~~ facility.

11. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ further comprising determining whether the source of the search request made a reservation with an identified ~~lodging~~ facility.

12. (Currently Amended) A computer readable medium ~~method~~ as recited in claim-1 ~~18~~ further comprising generating a report to a ~~lodging~~ facility offering ~~computer-related~~ print services, wherein the report identifies reservations resulting from identifying and communicating ~~lodging~~ facility information to the source of the search request.

13. (Currently Amended) A computer-implemented method comprising:

in response to a software application attempting to perform a printing operation using a print driver based on selected printing requirements, initiating a request to locate a remote facility that provides hardware/software for performing the printing operation;

~~determining lodging facility requirements, wherein the lodging facility requirements include at least one computer-related service;~~

communicating the request and the selected printing~~lodging facility~~ requirements to a server, wherein the server is configured to identify at least one ~~lodging~~ remote facility that satisfies the ~~lodging facility~~ printing requirements; and

receiving a listing of ~~lodging~~ remote facilities that satisfy the ~~lodging facility~~ printing requirements.

14. (Currently Amended) A method as recited in claim 13 ~~wherein~~ further including determining whether the hardware/software for performing the printing operation computer-related service is compatible with a computing device that initiates the request ~~the hardware associated with a system that determined the lodging facility requirements.~~

Claim 15 (Canceled).

16. (Currently Amended) A method as recited in claim 13 wherein the ~~computer-related service is~~ printing requirements include a printer ~~in at least a portion of the rooms of the lodging facility.~~

17. (Currently Amended) A method as recited in claim 13 further comprising requesting a reservation at one of the listed ~~lodging~~ remote facilities that satisfy the ~~lodging~~ facility printing requirements.

18. (Currently Amended) A computer readable medium for providing computer executable instructions for performing a method, the method comprising:

receiving a request to print a selected item;

initiating a print operation to print the selected item based on selected print requirements using a print driver;

as part of the print operation, transmitting a search request to a server to locate a facility having a particular computer-related printing service capable of performing the print operation;

causing the server to identifying at least one facility having the requested computer-related printing service; and

receiving data from the server regarding -communicating the at least one identified facility facilities to a source of the request.

19. (Currently Amended) A ~~method~~ computer readable medium as recited in claim 18 wherein the facility is a lodging facility.

20. (Currently Amended) A ~~method~~ computer readable medium as recited in claim 18 wherein the facility is a conference center.

21. (Currently Amended) A ~~method~~ computer readable medium as recited in claim 18 wherein the facility is an airport.

22. (Currently Amended) An apparatus comprising:

a storage device configured to store information regarding a plurality of lodging facilities, wherein the information includes ~~computer-related~~ printing services offered by each lodging facility; and

a processor coupled to the storage device and configured to receive a request to locate a lodging facility offering a ~~particular computer-related~~ selected printing service, the processor accessing the information stored in the storage device to identify at least one lodging facility offering the requested ~~computer-related~~ selected printing service;

in response to identifying the at least one lodging facility, the processor being configured to execute instructions for making a reservation in the at least one lodging facility for a user; and

the processor being further configured to generate a report indicating the reservations resulting from users who requested to locate a lodging facility offering selected printing services.

Claims 23-24 (Canceled)

25. (Currently Amended) An apparatus as recited in claim 22 wherein the ~~computer-related~~ printing service includes a printer in at least a portion of the rooms of the lodging facility.

26. (Currently Amended) An apparatus as recited in claim 22 wherein the processor is configured to determine whether the ~~computer-related~~ printing service of a lodging facility is compatible with a user device used to generate the request to locate a lodging facility.
